

### Essay technicalities:

The final essay to the HCAS Lecture Series „The City: European and Global“ shall consist of two questions, reflecting the basic structure of the course. Please *answer both essay questions*:

- 1) Discuss the potential and limits of “the European City” as a concept in urban studies.
- 2) Take a look at the PP slides of Susanne Dahlgren's presentation and discuss in your essay what kind of perspectives have been applied in analysing cities in the global South. Select one such perspective (i.e. The Divided City) that you think as a useful one and explain why.

You are welcome to refer to aspects and methods presented in texts and presentations in the course, but you should arrive at arguments and conclusions of your own. The maximum length for each of the two essay parts is 5 pages (Word processed, double-spaced, font 12), and they ought to be submitted latest by 15<sup>th</sup> March 2010. Email them to [marc.schalenberg@helsinki.fi](mailto:marc.schalenberg@helsinki.fi) and [susanne.dahlgren@helsinki.fi](mailto:susanne.dahlgren@helsinki.fi)
