

# How to write an abstract for the proceedings of The 13th International Congress of Quantum Chemistry

J.H. Polvi<sup>a)</sup> and H. Ristolainen<sup>a)</sup>

a) *Division of Material Physics, Department of Physics, P.O.B. 64, FIN-00014 University of Helsinki, Finland*

This is an abstract template for the *Proceedings of The 13th International Congress of Quantum Chemistry*. The language of the abstracts is English. To maintain a coherent layout of the proceedings all authors should kindly write the abstracts using the templates provided in the conference web pages<sup>1</sup>.

The template is designed to reproduce correctly when A4 paper and 3 cm margins are used. Please do not change these settings! The font should be Times New Roman 12 pt. The users of OpenOffice should check that they have this font installed since otherwise OpenOffice will silently substitute it with a similar, but alas incompatible, font.

Abstracts will be submitted to the organizers electronically. Both, a filled in T<sub>E</sub>X/MS Word/OpenOffice template, and the resulting PDF file should be submitted. When using T<sub>E</sub>Xtemplate, please send any possible pictures separately. With OpenOffice and MS Word templates pictures should be inserted directly to the document. Submitted files will be published as they are.

The text has to be justified. References are cited in the text like this [1]. The reference list should use the format shown at the bottom of the page. Formulas should be centered and, if numbering is necessary, the number should be placed on the right in parentheses. Here is an example of an equation with numbering:

$$a^2 + b^2 = c^2 \quad (1)$$

Equation (1) is the Pythagorean theorem.

You can also include figures in your abstract. Here is an example how an eps picture can be included in a T<sub>E</sub>Xfile. The beautiful building in figure 1 is the main building of the University of Helsinki.

Figure 1: An example figure.

Lastly, one important notice: Due to our automated file handling system, *your abstract must fit to one page*. If this restriction causes you insuperable difficulties, please contact us by e-mail: [abs-icqc09@helsinki.fi](mailto:abs-icqc09@helsinki.fi) and we will treat your abstract files separately.
