

Directions to the Laboratory of Polymer Chemistry, Department of Chemistry, University of Helsinki

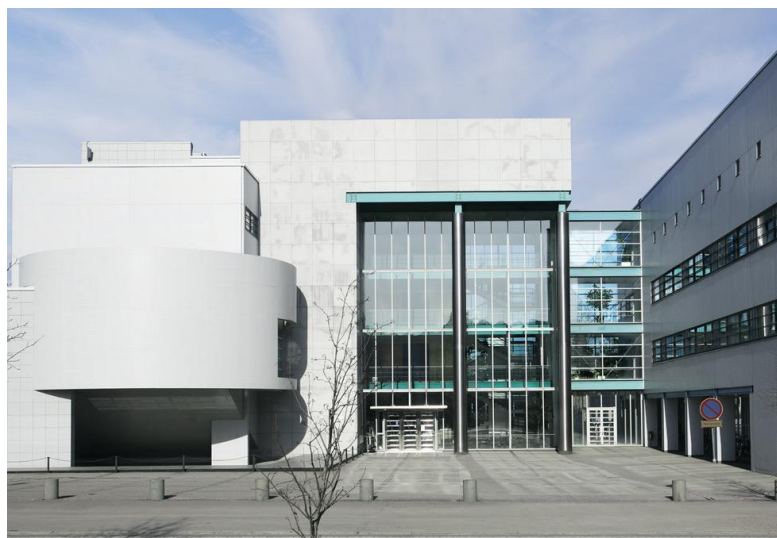

Fig. 1. The Department of Chemistry

The Department of Chemistry is situated at the Kumpula campus.

Two buses stop by next to the Department at bus stop "A.I. Virtasen aukio" - line 55K from the centre and line 506 (Science line) which runs from Aalto University – Pasila station – Kumpula – Viikki.

From the centre buses also stop at the nearby "Kustaa Vaasan tie" stop, for example lines 56, 68, 70T, 73, 75 and 77 and trams 6 & 8.

If you arrive by car, the parking on the hill is often rather difficult. For short term parking the shopping mall "Arabia" (next to the bus stops in Fig 2) offers free parking (2 hrs).

If you take a taxi, the address is "Gustaf Hällströmin katu" (the official address, A. I. Virtasen aukio, might not be recognised by the navigator or the driver)

The Laboratory of Polymer Chemistry is at the 4th floor of the A wing of the Department – when you enter the Chemicum building through the main doors in Fig. 1, turn left in the main lobby and take the elevator to the 4th floor.
