

BIBLIOGRAPHY OF NEO-ASSYRIAN (POST-WAR PERIOD)

Jaakko Hämeen-Anttila - Helsinki

This bibliography has been compiled in order to give a practical hand list of scholarly literature on Neo-Assyrian philology for the use of both scholars and students. Monographs, articles and reviews which deal with Neo-Assyrian language and texts (excluding royal inscriptions) from the philological point of view as well as some other works important to the understanding of these texts (e.g. articles on the geography of the area) have been included. This bibliography also covers commented and critical translations of Neo-Assyrian texts, but secondary literature and works dealing with Assyrian history and society have been largely excluded to keep the size of the bibliography within reasonable limits. Special emphasis has been put on recent studies, beginning from the 1960's and reaching up to 1986/7. The bibliography is organized chronologically and will be updated annually.

The abbreviations are those used by von Soden in his *Akkadisches Handwörterbuch* (Band I, S. X-XVI; Band III, S. IX-XVI) with the following additions:

ARRIM = Annual Report of the Royal Inscriptions of Mesopotamia Project.

AT = Menzel, B., *Assyrische Tempel I-II*, *Studia Pohl, Series Maior* 10/I-II, Roma.

I wish to thank the editorial board of the *SAA* project and of SAAB who helped me in selecting the material and drew my attention to some items which I had overlooked in the first draft of this bibliography.
