

NEW JOINS IN THE *ADD* II MATERIAL

In preparation for the *State Archives of Assyria* edition of the administrative documents, in collaboration with F.M. Fales, I have been collating the tablets published by Johns in *ADD* II. Several joins in this material have been made recently by T. Kwasman, and I have been able to make five more myself. Readers may find it helpful to have a list of these joins. Except for those marked JNP, they are all by Dr. Kwasman, who is cordially thanked for providing his list. Note that in a few cases unpublished fragments come from the many small pieces recently added to the K sequence and as yet uncatalogued.
