

First Announcement

Dear Colleague,

As a continuation of the previous conferences held in the Czech Republic, Finland and Germany, we are now organizing the 7'th international conference on

**Function spaces, Differential Operators and Nonlinear Analysis.**  
<http://mathstat.helsinki.fi/fsdona>

The conference will be organized between August 25 - 29, 2008 in Helsinki, Finland. The conference is preceded by a workshop, August 22 - 24, aimed especially at younger researchers.

The main topics of interest are harmonic analysis, nonlinear PDE's and applications. The program consists of invited lectures. The following speakers have accepted to give a talk in the conference (\* unconfirmed):

- Viviane Baladi
- Lennart Carleson
