Information Regarding Conference Locations

Academic program

Buildings S (Seminarium) and **H** (Historica) are the venues for the academic program.

Class rooms S203, S204 (coffee), S303, S304 and lecture room S212 (*Vanha juhlasali, The Seminarium assembly hall*) are found in Building S. The second floor of Building H is where you can find the class room H306. Both buildings are located on the *Seminaarinmäki* campus. On the map 2, Building S is marked by a red circle, Building H by a blue circle.

Coffees and lunches

In Building S, coffee is available on the second floor and class room S204. The restaurant *Lozzi*, shown on the map as an orange circle, serves lunch in **Building P**.

Welcome get-together on Wednesday, June 12th, starting at 17:00

The venue is *Boombox*, which you can find from **Building M** on the *Seminaarinmäki* campus; on the map it is indicated by a green circle.

Conference dinner on Thursday, June 13th, starting at 19:00

The venue for the event is *Wanha Woimala* (<https://wanhawoimala.fi/>), located in Vaajakoski, 9 kilometers east of the centre of Jyväskylä.

Bus transportation is offered between Jyväskylä and *Wanha Woimala*. There are two options for where to depart:

The buses initially leave at **17:45** from the *Seminaarinmäki* campus in front of Building B Lähde at 17:45 (letter D on Map 1).

At **18:00**, the second departure point is located at Lutakonaukio (letter E on Map 1).

At **23:00** there is a departure from Vaajakoski to Lutakonaukio, Jyväskylä.

Situated between Lake Päijänne and Lake Leppävesi, Wanha Woimala is a historic hydroelectric power facility that dates back to 1920. Up until 1940, it produced power for the local community. This two-story former power station was an important component of the Vaajakoski industry. Throughout the 19th century, Vaajakoski expanded from a tiny rural village to a sawmill industry town. Naissaari, a small island with a cultural-historical entity that blends nature, scenery, and culture, is home to Wanha Woimala. There are three 19th-century wooden residences on the island, a 1920 wooden house, and two 1934 functionalist houses. There is time for exploring the historic walkway that encircles the island before the dinner.
