

Learning, brain and technology

New project:

AI in Learning

AI in Learning is a Co-Innovation project (2020-2021) funded by Business Finland. Read more [here](#).

Online-event

How to support students' stress management skills? by SPOTLIGHTERS

2 April 2020 at 15:30-17:00

Zoom:

<https://helsinki.zoom.us/j/260629296>

Welcome to hear and discuss about stress and stress management and their relationship to learning and studying. The event is organised by Spotlighters project funded by Erasmus+. Read more from our [website](#).

To teachers:

Online course (MOOC) about the neuroscience of learning

An Illuminated MOOC (Erasmus+) - an online course free of charge - about the neuroscience of learning is now available to everyone! Whether you are a teacher, a student or just interested about learning, this course provides you with the latest knowledge about diverse topics related to learning: e.g., how the brain is functioning, how to arrange your teaching or learning in an optimal way or what are the good habits in life that promote learning and well-being of the brain.

[Enroll](#) in the course and find the most interesting topics or study through the whole course!

Co-funded by the
Erasmus+ Programme
of the European Union

Past events

Visiting lectures about Media and Art Education:

- How does the use of digital media influence children's reading and writing acquisition in primary school? by Dr. Sabine Gerth.
- Neuroeducation and Music Learning by Prof. Mireille Besson.
